**1. Finalize Details of Next Event:**

- a. Wednesday, January 31 6:30-7pm SH Library: "Connecting your backyard to the rest of the Western Hemisphere through migratory birds." Have you ever seen a strange colorful bird singing in your back yard in the spring? Have you wondered where that bird came from or maybe where it might be headed? Did you wonder why you were so lucky to have it in your backyard? Bill is a Senior Migration Ecologist with the National Audubon Society where he provides a migratory bird perspective to Audubon's conservation Science. In this talk he will use examples of hundreds of tracked migratory birds to tell the story of how birds travel across hemispheres and what you can do in your own yard to help them on their journeys.
