Notice of Practice Tests for Planning Board Virtual Public Hearings

The Planning Board will commence virtual public hearings on pending and new applications beginning June 15, 2020. The Planning Board suggested that there be an opportunity for the public to test their ability to access and utilize the Town's virtual meeting platform – Google Hangout Meet – prior to the first public hearing. This will provide the public an opportunity to become familiar with how to access the platform and where the various controls are found on their particular device. Accordingly, the Planning & Conservation Department has scheduled three such sessions as identified below:
