Written response:

Having listened to the Housing Production Plan proposal for the Town I have concluded the following;

1. It is too intense for the average voter to form an opinion on how it will affect their interests in the Town. 200 pages is too much to digest. The one meeting at the senior center that I attended had no explanation of this proposal but rather concentrated on the proposed need..
 2. To expect the taxpayer to have input to the Planning Board when the only access is by Zoom is a half hearted attempt at transparency. The need for "Hybrid Meetings" given what is being proposed is a MUST!
 3. Learning at the meeting on the 23rd that at the conclusion of the meetings that the proposal would be voted on by the Planning Board then forwarded to the Select-board for their vote and from there to to State with no input from the Town Meeting Members I was appalled! A proposal of this magnitude needs the input of the Town representatives.
